

The Group

The globally active MST Group consists of four technology manufacturing facilities and a strong sales and partner network. Our mission is to develop high-quality electronic systems that function in demanding environments. We work hand in hand with our customers from the product idea onwards and support them throughout the entire product life cycle.

MST – your partner of choice
for Class 3 components and solutions.

About MST

At MST, we deliver innovative Class 3 high-performance components and solutions for medical technology where failure is not an option. With our expertise in microelectronics, we provide unmatched reliability and innovation tailored to the toughest demands.

Micro Systems Technologies
engineering for life

Your Trusted Partner in Microelectronics

With extensive experience in the microelectronics industry, MST is committed to turning your innovative concepts into market-leading products. Our team of expert engineers brings both technical excellence and a deep passion for customer service, ensuring we fully understand your unique needs. We pride ourselves on our customer-focused approach, delivering tailored solutions that drive success.

Class 3 Components & Services for System Miniaturization and Hermetic Electronics & Device Assembly

-  Device Assembly
-  Semiconductor Packaging
-  PCB Assembly
-  Primary Batteries
-  Hermetic Feedthroughs

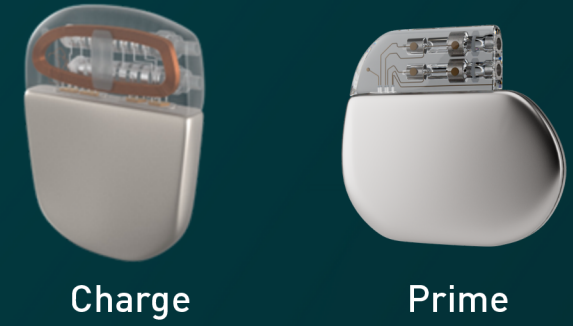

Our services include design for manufacturability, turnkey supply chain management, single piece traceability, and the development of advanced test systems.

More Information

Your Device, Your Therapy

Introducing Charge and Prime - our advanced neuro platform solutions that combine off-the-shelf components with custom building blocks. Benefit from faster R&D, streamlined time to market, and scalable production. With FDA validated platforms, Class 3 manufacturing, and more than 60 years of experience, we can help you bring your neuro device to market faster and smarter.

Your Bridge from Therapy Idea to Market Success
